ValueGain...

1 **Expert Analysis Models**

ValueGain's Expert Analysis Models allow you to follow the investment styles of the world's most successful investors and pick stocks based on their winning formula.

2 **Precomputed Scans**

ValueGain takes the work out of stocks selection by providing you with a short list of stocks with the best profit potential.

3 **Fundamental Dashboard**

Is your stock a Growth, Value or Income stock? Find out using our Fundamental Dashboard. This function allows you to quickly choose stocks that are suited to your style and eliminate those that aren't.

4 **Broker Recommendations**

Buy, sell or hold - what are the experts saying? Cross reference your own analysis with **ValueGain's** inbuilt Broker Recommendations.

5 **Key Company Figures**

Stop slaving over pages of financial statements. Save time and money by using **ValueGain** to view the most important fundamental statistics of a company in seconds.

6 **Industry Average Charts**

Knowing how your stock is performing relative to the industry is vital in determining its likely performance. **ValueGain's** Industry Average charts allow you to do exactly that from the software's start screen on your stock of choice.

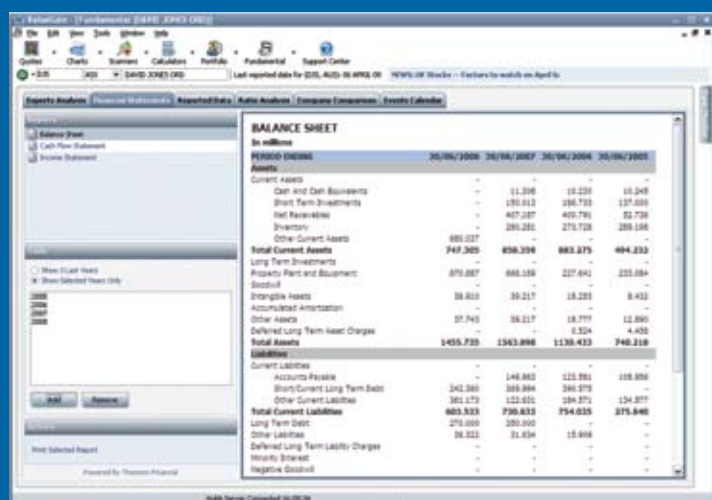

Fundamentals Made Easy

Previously analyzing the financial statements of companies was considered the work of brokers and analysts because of the amount of time and information required to get the job done. **ValueGain**, using the latest in software technology, helps you make light work of analyzing the markets and gives you the power to invest like the world's best. It really is fundamental analysis made easy!

Financials at your Fingertips

Enhance your investment analysis using our accessible Financial Statements. At the click of a button **ValueGain** gives you the need-to-know information on a company of your choice, taking the hard work out of fundamental analysis, and putting the knowledge on your desktop.
